

# Versa Titan

## Cloud-Managed SD-WAN and SD-Security

### The Easy Button to Connect, Secure and Manage Your Branch

Versa Titan is a cloud-managed SD-WAN and SD-Security solution that reduces the cost, time and complexity associated with WAN transformation.

Versa Titan makes it easy to deploy and manage your network edge, simplifies the branch with fewer devices, enhances visibility and control of applications, bandwidth utilization, network performance and security vulnerabilities.

- Context-aware Enterprise-grade networking and security
- Cloud-aware and SaaS Accelerated for dynamic direct-cloud access (AWS, Azure, O365, G-Suite, Workday, Salesforce and more)
- Automated for lean IT

### One touch. One view. One network.

*Easily manage the WAN from the cloud*

### Versa Titan: Complete Cloud Managed IT Solution

#### TITAN OVERVIEW

- Cloud-managed IT service that improves business continuity and operational efficiency
- Protects your business from cyber threats with built-in security
- Eliminate complexity by removing multiple appliances with a single multi-service platform
- Speeds up deployment and automates change management

## The Easy Button for IT

Simplify deployment and operations of your branch network via an intuitive UI (user interface) that integrates provisioning, configuration, monitoring and license management. Versa Titan provides you an easy button to configure and secure your branch.

Versa Titan enables IT management anywhere, anytime via a cloud-managed portal and mobile app. IT is provided granular contextual visibility to the users, devices, application and network of the entire estate from the cloud.

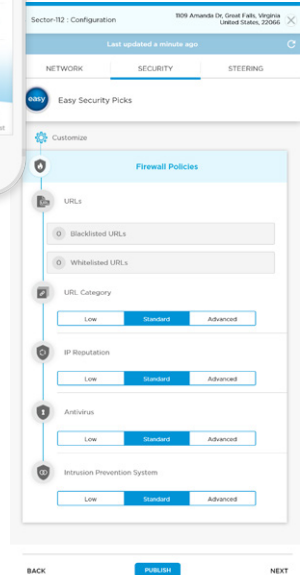

Versa Titan delivers the following capabilities at the branch:

- Routing, SD-WAN, SD-Security
- WAN: MPLS, broadband, 3G/4G, LTE-A
- LAN: Ethernet & WiFi
- Multi-Link with Dynamic Path Selection
- User/Application visibility and prioritization
- Integrated security: NGFW, URL Filtering, NG-IPS

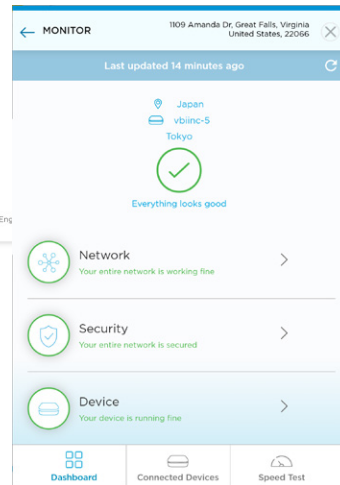

*Quickly and securely activate sites from your mobile device*

*Customize or choose EZ-Pick to quickly configure a site*

*Clean interface to rapidly configure networking, security and traffic steering*

*Seamless management experience, whether mobile-app or web-based browser*

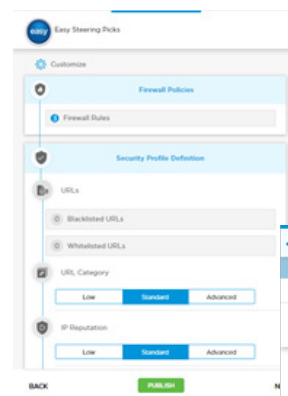

## Cloud-managed SD-WAN and SD-Security to support business agility

IT automation with always-on management and support to keep your business up and running – without draining IT resources.

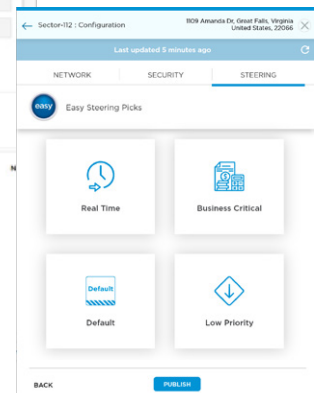

## Deploy sites fast, increase site capacity and application performance intelligently

Versa Titan is a secure branch connectivity services platform optimized for delivering enterprise and cloud applications while reducing WAN costs and improve site reliability to meet evolving business transformation objectives.

*Intuitive and easy to configure advanced security.*

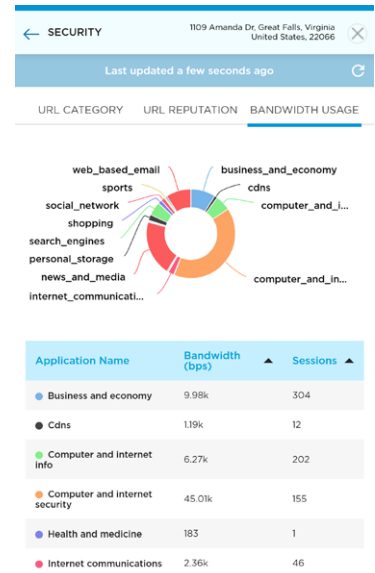

*Use our pre-defined application-traffic steering policies or easily customize to your need*

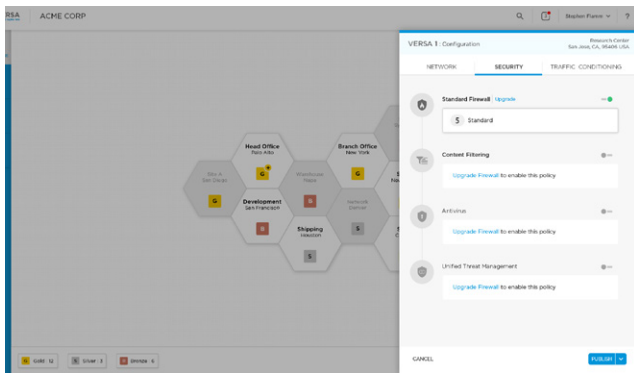

## Secure users, devices and sites for WiFi, LTE and Internet

Security is inherent to Versa Titan with an NGFW included in the default package and UTM as an optional service. Gain real-time, advanced security for on-premises and cloud WAN paths, strengthening compliance and protection requirements, with network micro-segmentation, traffic encryption and sophisticated encryption management capabilities to ensure hybrid-WAN security from day one.

*Granular and contextual visibility to application utilization at the branch*

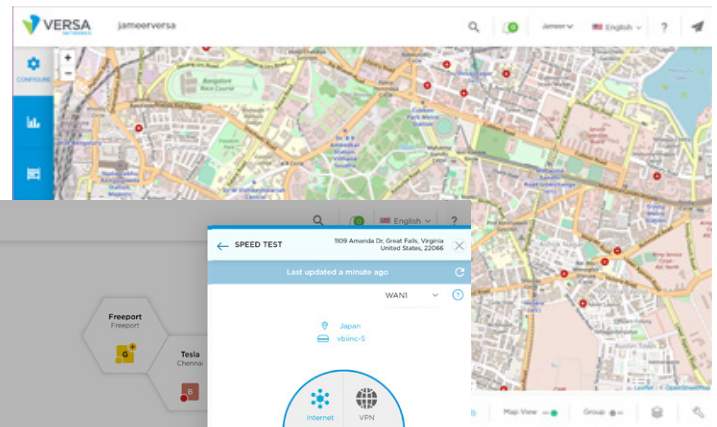

*Quickly get a view into any security risks and correlate to what kind of traffic and categories*

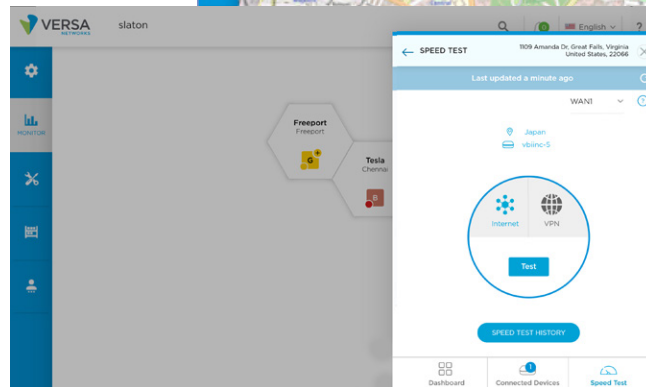

*Instant status updates for your sites, device, security and networking*

## Simplified Control and Visibility

Versa Titan provides application optimization and WAN services management controls in one integrated, cloud-based console and mobile app. Now, it's easy to automate and reprogram policies across multiple clients, and multiple virtual network functions, and monitor and analyze the impact of associated changes.

*Map your sites and check performance of Internet or site-to-site VPNs*

*Troubleshoot the branch and check WAN performance*

## Fast and Efficient Support

Get quick and easy access to Technical support through the on-line portal and mobile-app to access:

- Self-help tutorials
- FAQs
- Community support
- "How to" videos
- Live chat with technical experts
